

Call for Papers

7th International Conference on Dynamics in Logistics (LDIC 2020)

Bremen, Germany

February 12 – 14, 2020

www.ldic-conference.org

Scope

Dynamics of logistic processes and networks are at the heart of the conference. The spectrum of topics reaches from the modeling, planning and control of processes over supply chain management and maritime logistics to innovative technologies and robotic applications for cyber-physical production and logistics systems.

LDIC 2020 provides a forum for the discussion of advances in that matter. The conference addresses scientists in logistics, operations research, engineering, and computer science. It aims at bringing together researchers and practitioners interested in dynamics in logistics.

Topics

- Supply Chain Management and Coordination
- Maritime Logistics
- Cyber-Physical Production and Logistic Systems
- Sensors and Sensor Networks in Production and Logistics
- Artificial Intelligence in Logistics
- Advanced Modelling and Optimization Methods
- Big Data in Logistics
- Human-Centered Logistics

Submission and Publication

Papers submitted to the conference must contain original research, should consist of five to ten pages and should be formatted according to the Springer template available on the conference website. Simultaneous submission to other conferences with proceedings or submission of material that has already been published elsewhere is not allowed.

The submission system including author instructions will open in June 2019. All submitted papers will be peer-reviewed. Springer will publish the conference proceedings in its series "Lecture Notes in Logistics". The proceedings will be indexed by Scopus, Web of Science (ISI), ACM DL, DBLP, Google Scholar, Research Gate and Springer Link.
